

## [CALL FOR SPONSORSHIP](#)

### **Warren B. Nelms IoT Conference Sponsorship Opportunities**

The **Warren B. Nelms Institute for the Connected World** is at the forefront of research, education, and outreach in core aspects of Internet of Things (IoT) technologies, including security, safety, machine intelligence, and interoperability, and their innovative applications in areas like health, energy, transportation, and manufacturing. The Annual IoT Conference was founded to create a community for researchers, students, industry, and government partners to come together and discuss IoT technology and applications for solving global problems.
