

CALL FOR PARTICIPATION

WARREN B. NELMS ANNUAL

IoT

CONFERENCE 2024

December 5-6, 2024

Malachowsky Hall,
University of Florida

<https://go.ufl.edu/loT24>

THEME: SECURE AND INTELLIGENT INTERNET OF THINGS FOR SOLVING GLOBAL PROBLEMS

The **Warren B. Nelms Institute for the Connected World** at the University of Florida is pleased to announce our second **Annual IoT Conference**, to be held **December 5-6, 2024** at Malachowsky Hall, University of Florida campus, in Gainesville, FL.

[REGISTRATION LINK](#)

The two-day conference will feature **Keynote Talks, Visionary Talks, and three panels.**

The **Warren B. Nelms Institute for the Connected World** is at the forefront of research, education, and outreach in core aspects of Internet of Things (IoT) technologies and their innovative applications in solving global problems in areas like health, energy, and transportation.

Student Demo & Poster Sessions:

We expect to have a large diverse body of undergraduate and graduate students presenting posters and demos on their research projects spanning various aspects of smart and connected systems. Winners will be selected in each category. The student poster and demo session would be a great avenue to connect with our talented students.
